

Diffraction and Low-x 2018

Tuesday, 28 August 2018

Diffraction in ep and eA (14:30 - 15:50)

time	[id] title	presenter
14:30	[156] Fits to high-x data and measurement of charm production in charged current	SOLANO, Ada
14:50	[157] b production via a double muon tag	BRUNI, Alessia
15:10	[158] Collective effects in DIS at HERA	RUSPA, Marta
15:30	[159] Exclusive rho and rho' photoproduction at HERA	LEVONIAN, Sergey

Diffraction in ep and eA (16:20 - 18:20)

time	[id] title	presenter
16:20	[160] Diffractive PDFs measurements at the LHeC	GOLEC-BIERNAT, Krzysztof
16:40	[161] Diffractive electron-nucleus scattering and ancestry in branching random walks	MUNIER, Stephane
17:00	[163] Proton Spin in Deep Inelastic Scattering	POVH, Bogdan
17:20	[164] The EIC project: physics and status	LEE, JH
17:40	[165] Discussion session: ep and eA physics	DESHPANDE, Abhay BARTELS, Jochen RUSPA, Marta
