

**Session Program**

**18 November 2009**

**Gentner Day 2009**

***Afternoon***

CERN

# Wednesday 18 November

14:00

## Afternoon

**Session** | **Location:** CERN, 40-S2-D01

14:00–16:00

### Doctoral Students Presentations II

#### Location

CERN, 40-S2-D01

#### Subcontributions

##### Semantic Web technologies in the field of Incident Management

###### Speaker

Lars Aprin

##### Assessing the impact of scientific ideas in the novel information environment

###### Speaker

Henning Weiler

##### The PixelGEM Tracking System for COMPASS

###### Speaker

Alexander Austregesilo

##### Commissioning of the ATLAS Inner Detector Track Reconstruction Software

###### Speaker

Johanna Fleckner

##### Development of Interaction Triggers using the Inner Detector of ATLAS

###### Speaker

Regina Kwee

##### Development of software for the ATLAS Pixel Detector Control System

###### Speaker

Kerstin Lantzsch

16:00–16:20

### coffee break

16:20–17:20

### Doctoral Students Presentations III

#### Location

CERN, 40-S2-D01

#### Subcontributions

##### ALICE TRD Global Tracking Unit

###### Speaker

Stefan Kirsch

**Software distribution in a virtualized infrastructure**

**Speaker**  
Jakob Blomer

**ALICE simulations with Geant3, Geant4, and Fluka**

**Speaker**  
Eva Sicking

17:20-18:00

**Discussion**

**Speaker**  
ALL

**Location**  
CERN, 40-S2-D01

18:00
