Technical support for a mobile guide

# TWO GUIDES POLICY

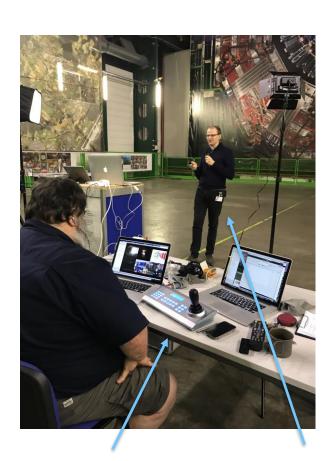

Both guides are cooperatively guiding the participants of the virtual visit.

At CMS surface hall

OR

At the CMS Control Room

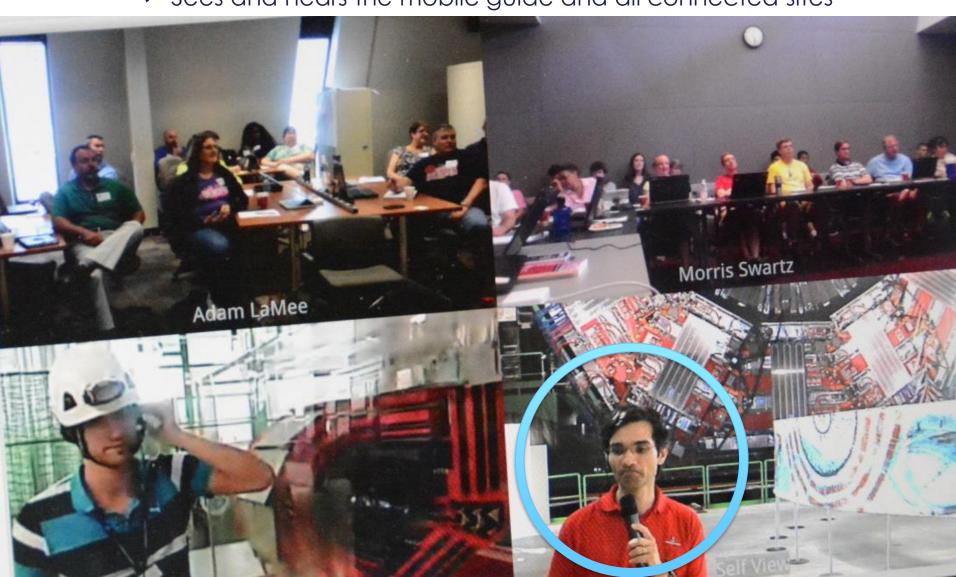

Surface guide

Technical expert

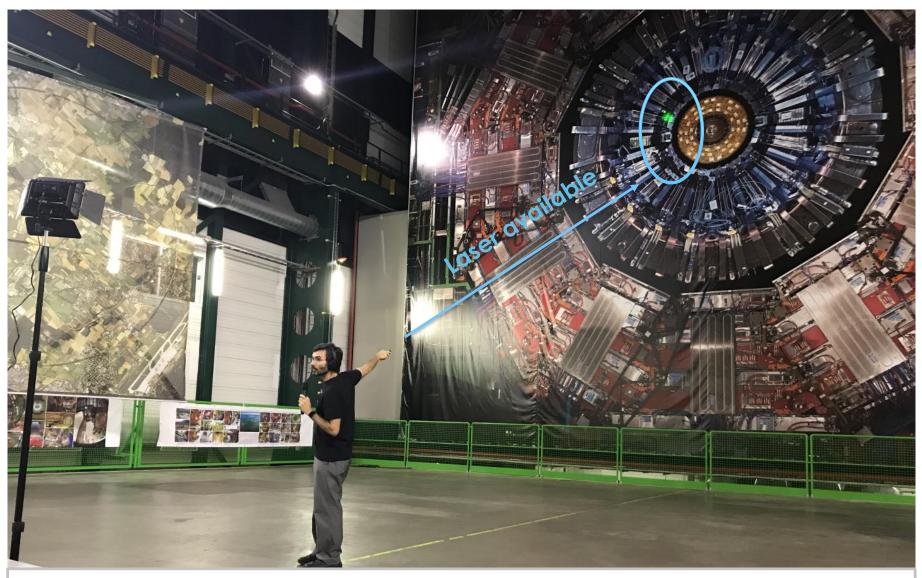

Surface guide

- ✓ No underground access needed
- ✓ Has a good (and stable) internet connection

✓ Sees and hears the mobile guide and all connected sites

- ✓ Starts the visit and introduces himself/herself and the other guide
- ✓ Encourages the audience to ask questions through the visit
- ✓ Explains where we are, what is LHC and CMS

✓ If at the CMS surface hall, one can refer to the real size poster of CMS to explain more details about the detector

- ✓ Passes the voice over to the mobile guide when he/she connects from the control room
- ✓ Be ready to "continue" the visit when the mobile guide loses the internet connection

"On the go" guide

#### **NECESSARY ACCESS**

- ✓ USC is a minimum
- ✓ UXC if the tour goes through to the UXC.

The corresponding Impact workpermit will be organised by the Virtual Visits technical team.
