

# Project Manager's Report

Colin Whyte

# MICE de-commissioning

- Now identified all equipment to be returned to owners.
- List to be approved at EB 6/4/18.
- Requires some re-crating – in progress.
- Didcot store empty by 6/4/18.

# Post Run Survey

- Magnet positions
  - Superconducting
    - SSU, FC, SSD
  - Conventional
    - Q 7,8,9 Q 4,5,6 Q 1,2,3
  - *Diffuser*
- Detectors
  - ToF
    - ToF 0, 1 & 2
  - KL
  - Cherenkov
  - EMR
- Trackers
  - ‘Frames’
  - *Hall probes*

## Key

Before SYNC closes – done

Before DSA closes – done

Now – completed this morning.

Week starting 19<sup>th</sup> February

Anytime before end March

# De-commissioning Plan

- Survey complete
  - Diffuser and Tracker hall probes to be completed in tracker lab.
- PPS and Oxygen depletion system
  - complete for handover.
- Detectors de-cabled
- DS off
- All gas off
- Cooling water off
- Air conditioning off
- FC, SSU&D warm and empty

# Magnet map in PRY

- Magnet mapping group from CERN
  - Complete
  - T Millington survey in place.
  - Joe Langlands leading.
  - Magnet mapper returns to CERN this week.

# Equipment

- Equipment maintained in Hall until June.
- Re-crating for shipping in progress.
- ISIS will retain beamline to beam-stop
- Plan to
  - Disassemble and scrap SS magnets.
  - Salvage coolers, cables and compressors
  - Scrap PRY.

# MICE Close Out Review

- Coseners 17<sup>th</sup> 18<sup>th</sup> April.
- Papers submitted end of week after EB.
- 'Lessons learned' exercise.
- Opportunity to recognise achievements.
