Type: **not specified**

The CENF-ND and the Update of the European strategy of Particle Physics

Wednesday 18 April 2018 14:00 (30 minutes)

Presenters: SALA, Paola (CERN and INFN Milano); BORDONI, Stefania (CERN)

Contribution ID: 2

Type: **not specified**

Long-baseline near measurements: scientific strategy and conceptual design

Wednesday 18 April 2018 14:30 (30 minutes)

This talk is in three parts: a summary of current scientific requirements and conceptual design for DUNE as discussed in the DUNE near detector working group, strategies employed by currently running experiments such as MINOS, T2K, and NOVA, and various technical issues faced by all. Based on this discussion, an approach is proposed for a long term program which will evolve. The facilities for the near measurements will need to be flexible to allow change.

Presenter: DIWAN, Milind Vaman (Brookhaven National Laboratory (US))

Contribution ID: 3
