## Overview of some CERN High Radiation to Materials experiments and focus on Post Irradiation Examinations

*Thursday, 20 December 2018 15:05 (25 minutes)*

This talk will present recent High Radiation to Materials experiments run at CERN, and describe their motivations. A focus on the PIE, and the related outputs useful for beam intercepting devices will be given.

**Primary authors:** NUIRY, Francois-Xavier (CERN); BERGERET, Maxime (CERN); LAMAS GARCIA, Inigo (CERN); MAESTRE HEREDIA, Jorge (Centro de Investigaciones Energéticas Medioambientales y Tecnológicas); PERILLO MARCONE, Antonio (CERN); CARBAJO PEREZ, David (Universidad de Oviedo (ES))

**Presenter:** NUIRY, Francois-Xavier (CERN)

**Session Classification:** Proton Thermal Shock
