

# LHC Seminar

SPEAKER: **Chen Zhou**

TITLE: **New results on Higgs boson physics  
from the ATLAS experiment**

DATE: 26 Jun 2018, 11:00

PLACE: 503-1-001 - Council Chamber

## ABSTRACT

The ATLAS Collaboration has recently released several results that shed more light on the nature of the Higgs boson particle and the BEH mechanism. A selection of these Higgs boson results, including some results based on up to 80 fb<sup>-1</sup> of integrated luminosity collected at a centre-of-mass energy of 13 TeV with the ATLAS experiment at the LHC, will be presented.
