D4Science-II 1st TCom

Report of Contributions

Contribution ID: **2** Type: **not specified**

TJRA1.4 - Implementation Priorities

Thursday, 10 December 2009 14:00 (2 hours)

Session Classification: gCube Technical Session

Contribution ID: **6** Type: **not specified**

TSA1.2 - Monitoring

Friday, 11 December 2009 12:00 (45 minutes)

Includes: status and plans for monitoring tools; status and plans for accounting tools.

Presenter: MANZI, Andrea (CERN)

Session Classification: gCube Technical Session

Contribution ID: **8** Type: **not specified**

TSA3.1 - Integration and Release Plan

Friday, 11 December 2009 09:00 (30 minutes)

Includes: possible changes to apply in the gCube release cycle in D4S2; the plan concerning the tools to be exploited; a draft plan of coming releases.

Session Classification: gCube Technical Session

Contribution ID: **9** Type: **not specified**

TSA3.3 - Testing

Friday, 11 December 2009 09:30 (30 minutes)

Includes: status of functional test executor tools; plans for functional tests in D4S2; plans for stress tests in D4S2; plans for deployment test (SA, VRE) in D4S2

Session Classification: gCube Technical Session

Contribution ID: **10** Type: **not specified**

TSA3.4 - New Distribution Strategy

Friday, 11 December 2009 10:00 (1 hour)

Includes: integration of software distribution into gCube website; modifications to the gCube SR service.

Session Classification: gCube Technical Session

Contribution ID: **11** Type: **not specified**

TSA1.1 - Ecosystem and Infrastructure Plans

Friday, 11 December 2009 11:15 (1 hour)

Includes: resources allocated to the infrastructure; plans for January milestones; deployment of secure infrastructure; gLite services status.

Presenter: ANDRADE, Pedro (CERN)

Session Classification: gCube Technical Session

Contribution ID: **13** Type: **not specified**

TJRA1.4 - Implementation Priorities

Thursday, 10 December 2009 16:15 (1h 45m)

Session Classification: gCube Technical Session

Contribution ID: **14** Type: **not specified**

TNA4.1 - Interoperability Development

Wednesday, 9 December 2009 09:00 (1 hour)

Discussion the workplan details, the template (to be put on the Wiki next week) and aggregation of key topics of interoperability that have been identified up to that moment by ALL interoperability cases. The WP leader will come with the main presentation for the discussion and we will enrich/revise it with more options during the meeting. Tasks should be ready to contribute to the discussion with structured info (no presentations required though)

Session Classification: Interoperability Session (NA4)

Contribution ID: 15 Type: **not specified**

TNA4.1 - D4Science-AquaMaps Interoperability

Wednesday, 9 December 2009 10:00 (1 hour)

Open discussion on specifications, procedures, requirements driven by the aquamaps case. The case representative should lead with a technical presentation about what can be consumed both directions and the discussion to be driven should elaborate the protocols/technologies, enlarge the case and evaluate the feasibility of the individual items.

Session Classification: Interoperability Session (NA4)

Contribution ID: **16** Type: **not specified**

TNA4.1 - D4Science-DRIVER Interoperability

Wednesday, 9 December 2009 11:15 (45 minutes)

The results of the initial interoperability focusing meetings will be presented and discussion on each case will extend/refine towards global convergence via diffusion and harmonization.

Session Classification: Interoperability Session (NA4)

Contribution ID: **17** Type: **not specified**

TNA4.1 - D4Science-GENESI-DR Interoperability

Wednesday, 9 December 2009 14:00 (1 hour)

Similar to the AquaMaps session, led by TERADUE representative.

Session Classification: Interoperability Session (NA4)

Contribution ID: **19** Type: **not specified**

TNA4.1 - D4Science-INSPIRE Interoperability

Wednesday, 9 December 2009 15:00 (1 hour)

Similar to the AquaMaps session, led by CERN representative.

Session Classification: Interoperability Session (NA4)

Contribution ID: **20** Type: **not specified**

TNA4.2 - Participation to Standardisation Bodies

Wednesday, 9 December 2009 16:15 (45 minutes)

Collective enumeration and proposals on where the project (by its members) should/can be placed for pushing the specs it needs / adopts. The precise topics should be driven mostly by the discussion of previous sections (as they define the targeted specs/bodies). The discussion will be led/coordinated by the task leader but contributions should come from all attendants.

Session Classification: Interoperability Session (NA4)

Contribution ID: **22** Type: **not specified**

TNA4.1 - Other (FAO) Repositories Interoperability

Wednesday, 9 December 2009 12:00 (1 hour)

Similar to the AquaMaps session, led by FAO representative. Apart from the technologies the repositories themselves have to be presented too along with all currently available information.

Session Classification: Interoperability Session (NA4)

Contribution ID: **23** Type: **not specified**

INSPIRE Part 1

Thursday, 10 December 2009 09:00 (2 hours)

Session Classification: INSPIRE Session (NA5)

Contribution ID: **24** Type: **not specified**

INSPIRE Part 2

Thursday, 10 December 2009 11:15 (1h 45m)

Session Classification: INSPIRE Session (NA5)
