

# CMS masterclass update

New developments planned for IMC 2019

- Move Higgs events out of WZH  $\rightarrow$  WZ measurement
- New measurement
  - Use  $\sim 10^2$  events with 4 leptons
  - Make mass plot  $< 90$  GeV to  $> 180$  GeV
  - Supplement to WZ?
  - Use Jupyter notebook?
- Old measurement
  - Mostly stable
  - Still need to add D-Y
