Thursday 10 May 2007

Data Management (09:00 - 10:30)

time	[id] title	presenter
09:00	[26] Intelligent, distributed climate data management	Dr KINDERMANN, Stephan
09:20	[58] Implementation of a Grid-based telemedicine platform	DIARENA, Matteo
09:40	[10] Security in a Replicated Metadata Catalogue	Dr BIRGER, Koblitz
10:00	[111] G-DSE: Grid – Data Source Engine	Dr TAFFONI, Giuliano

Data Management (11:00 - 12:30)

time	[id] title	presenter
11:00	[114] Implementation and performance analysis of the LHCb LFC replica using Oracle streams technology	CARBONE, Angelo
11:20	[115] Access to user data via HTTP and HTTPS	Dr MCNAB, Andrew
11:40	[116] Data Management in LHCb: consistency, integrity and coherence of data	BARGIOTTI, Marianne
12:00	[122] ARDA Dashboard Data Management Monitoring	ROCHA, Ricardo

Data Management (14:00 - 15:40)

time	[id] title	presenter
14:00	[75] GSAF: GRID Storage Access Framework	Dr SCIFO, Salvatore
14:20	[123] BioinfoGRIDBlast: a new approach at automatic database management, update and replication for Grid-enabled BLAST	Mr TROMBETTI, Gabriele
14:40	[95] GReIC Data Access Service: Extreme Performance Managing Grid Databases	Dr FIORE, Sandro
15:00	[156] Data and the Grid: the role of a Database in a Distributed Environment	Mr KERR, Graeme
15:20	[108] Today's Status of Data Management in Earth Science	Dr PETITDIDIER, Monique

Friday 11 May 2007

Data Management (09:00 - 10:50)

time	[id] title	presenter
09:00	[60] gLibrary: Digital Asset Management System for the Grid	Dr CALANDUCCI, Antonio
09:20	[134] Comparative evaluation of tools providing access to different types of data resources exposed on the Grid	DONVITO, Giacinto MAGGI, Giorgio
09:40	[146] DIRAC Data Management System	SMITH, Andrew Cameron
10:00	[190] Grid Interoperation on Data Movement between NAREGI and EGEE gLite	Prof. MATSUDA, Hideo
