

XIII Meeting on B Physics : Synergy between LHC and SUPERKEKB in the Quest for New Physics

Monday, 1 October 2018 - Wednesday, 3 October 2018

Marseille

Programme scientifique

The general theme of the workshop is "SYNERGY BETWEEN LHC AND SUPERKEKB IN THE QUEST FOR NEW PHYSICS". There will be four half-day sessions, corresponding to the tracks shown below.

Session 1: Prospects of CKM parameter measurements at SuperKEKB and LHC

Session 2: Charged lepton flavor and flavor universality violation

Session 3: Dark matter searches with leptons in LHC and SuperKEKB

Session 4: Future of experimental measurements and theoretical ideas
