

Cosmological probes of BSM - from the Big Bang to the LHC

Monday, 7 May 2018

Contributed Talks (17:00 - 18:00)

time	[id] title	presenter
17:00	[5] Ultra-light scalar dark matter: Motivation, dynamics and probes	SIBIRYAKOV, Sergey
17:30	[44] Higgs relaxation without inflation	FONSECA, Nayara

Tuesday, 8 May 2018

Contributed Talks (17:00 - 18:00)

time	[id] title	presenter
17:00	[45] Supercooling in Extra-dimensional Models: a QCD-induced exit	BARATELLA, Pietro
17:30	[46] Very light dilaton and naturally light Higgs	HONG, Deog Ki

Wednesday, 9 May 2018

Contributed Talks: Phase transitions (18:30 - 19:30)

time	[id] title	presenter
18:30	[49] Phase transitions from Inflation (and production of gravitational waves)	NOTARI, Alessio
19:00	[50] Observable windows of the QCD axion through N_{eff}	FERREIRA ZAMBUJAL, Ricardo

Thursday, 10 May 2018

Contributed Talks (17:00 - 18:30)

time	[id] title	presenter
17:00	[47] Primordial Black Holes from Axions?	ROMPINEVE, Fabrizio
17:30	[48] SIMP dark matter with dark resonances	LEE, Hyun Min
18:00	[43] Extended EFT of Inflation	ASHOORIOON, Amjad
