

Meeting goals

Makoto Asai and Marc Verderi
2018 Geant4 Collaboration Meeting
Lund University, Lund, Sweden

NATIONAL
ACCELERATOR
LABORATORY

Meeting goals

- Validation / quality assurance in particular in MT mode and large event samples
 - Critical for both physics and non-physics
 - Examine the test coverage : do we cover all functionalities / phase space?
 - Collaboration-wide effort
- Familiarize with new (and current) tools
 - Drupal, Git
 - Coverity, performance monitoring, Cdash, physics validation DB, etc.
- Look for the future
 - Join the discussion at plenary / parallel sessions on discussions about shorter- and longer-term developments
 - Again, collaboration-wide effort
- Update user requirements
 - New requirements, forgotten requirements
 - Emerging user domains, e.g. material science, radiation security, ...

Credibility

- There are still quite a many open bug reports.
 - The Steering Board is now checking every open bug report at every SB meeting.
 - Collaboration meeting is an excellent opportunity for tackling to long-standing issues.
- Please update bug report you are assigned to.
 - If you think the report should be assigned to someone else, please re-assign it. Otherwise change the status to "assigned".
 - If you have already fixed the issue, or if you have identified the report as invalid, please update the report status accordingly. Don't remain the report unattended.
- Many "good" HyperNews postings are unattended.
 - First of all, subscribe threads that are related to your WGs.
- Join the collaboration-wide efforts. Collaboration meeting is a good opportunity for joining in.
 - Testing, computing and physics performance monitoring
 - Examples, documentation, web

Let's discuss

- Geant4 version 10 series is not our ultimate goal. It's a solid milestone we have made as we planned, and it's the beginning of our new era.
 - We will keep improving Geant4, maintaining it and supporting our customer users for foreseeable future.
- Let's shape Geant4 version 11.
 - Robust and achievable longer term strategic plan can only be made with brainstorming discussions.
 - Join the discussions at plenary / parallel sessions on shorter- / longer-term developments.
- Face-to-face discussion is by far the best way of communication.
 - Speakers, please keep your talk in time. Session chairs, please allocate enough amount of discussion time.
 - Please make the best use of coffee and lunch breaks, evening getting together, etc. Find every opportunity for “non-scheduled” discussions.
