What are you doing here?

- Overcome **'it will take too long' / 'can't do this'** mentality
- Post mortem an **end to end system** built in **'hackathon style'**
- Get some **tools and insights** on how to integrate the cool stuff (ML/IoT) in your hackathon project over a weekend.
- Have fun, **drink beers** and **play teamfortress2** and discuss philosophy while trying to **speak French!**

Timeline

- -----
- 17:00– 18:15 : Theory
- 18:15 – 18:30: Break
- 18:30 – 20:00: Hack

- Beers/gaming
