Injector Design

Tuesday 25 June 2019 17:00 (15 minutes)

A High Energy Booster (HEB) is needed as an injector for the FCC-hh. This talk outlines the options available based on studies carried out over the last few years. The principal features of each option are shown and a strategy on how to proceed to reach a HEB TDR in 5 years is proposed.

Authors: BORBURGH, Jan (CERN); BARTMANN, Wolfgang (CERN)

Presenter: BORBURGH, Jan (CERN)

Session Classification: FCC-hh accelerator (EuroCirCol)

Track Classification: FCC-hh accelerator
