

4<sup>th</sup> EIROforum Topical Workshop

**CMOS Sensors**

**EIRO** forum  
serving european science

Traditionally, the EIROForum Working Group on Instrumentation (ITWG) is running two series of common events

- **The EIROforum Schools on Instrumentation (ESI)**

We concentrate on the basic principles of instrumentation and their application in the EIROs

- CERN (2009),
- ESRF/ILL (2011),
- CERN (2013),
- ESO (2015),
- XFEL (2017),
- ESA (2019)

- **Topical workshops**

We try to find topics of common interest to all/most EIROs.

- Radiation Hardness, Measurement and Materials, Lisbon, EUROfusion (2010)
- Instrument Control, EMBL (2012)
- management of instrumentation projects, ESO (2014)
- ~~○ Advanced materials, CERN (2016)~~
- CMOS Sensors, CERN (2018)
- ...

# Many thanks ...

- To the IdeaSquare team for making their facilities available
- Petra Riedler for organizing the agenda
- Livia, Laetitia and Sabrina (CERN EU office) for admin support
- To all speakers and participants!

*Let's have a fruitful and lively workshop!*
