

**Thermal history of the Universe at intermediate redshift: progress with
21cm absorption measurements**

Contribution ID: 11

Type: **not specified**

**Constraints on energy injection from 21-cm
measurements: primordial black holes, axion-like
particles and excited dark matter**

Tuesday 26 June 2018 17:00 (30 minutes)

I will review our recent papers 1803.09697 and 1805.09319

Presenter: Dr HUTSI, Gert
