

Session Program

22-24 Jan 2007

Accelerators Technical and Operation Review (ATC/ABOC Days)

Session 6: Experimental Areas North, East and CNGS

CERN, 874-1-011, 874-1-011
1211 Geneva, Switzerland

Wednesday 24 January

14:00

Session 6: Experimental Areas North, East and CNGS

Session | **Location:** CERN, 874-1-011, 874-1-011, 1211 Geneva, Switzerland

14:00–14:20

Introduction to the North and East Areas and CNGS

Speaker

Ilias Efthymiopoulos

14:20–14:40

Operations of the North and East Area and CNGS

Speaker

Karel Cornelis

14:40–14:55

Status and Outlook for Instrumentation and Controls

Speaker

Vito Baggiolini

14:55–15:10

PS East Hall + SPS North Area magnets

Speaker

Willi Kalbreier

15:10–15:30

Coffee break

15:30–15:45

SPS North Area Power Converters: What is the situation of the power converters of the SPS north area after the EA renovation?

Speaker

Yves Gaillard

15:45–16:00

CERN Experimental Areas Access Systems for 2007 and beyond

Speaker

Rui Nunes

16:00–16:15

CNGS: Status and Outlook

Speaker

Edda Gschwendtner

16:15–16:30

Outlook by the Physics Coordinator

Speaker

Christoph Rembser

16:30
