

Session Program

22-24 Jan 2007

Accelerators Technical and Operation Review (ATC/ABOC Days)

Session 5: AD Machine & Experimental Areas - nTOF Facility

CERN, 874-1-011, 874-1-011
1211 Geneva, Switzerland

Wednesday 24 January

09:00

Session 5: AD Machine & Experimental Areas - nTOF Facility

Session | **Location:** CERN, 874-1-011, 874-1-011, 1211 Geneva, Switzerland

09:00-09:05 **Introduction to the session**

Speaker

Ilias Efthymiopoulos

09:05-09:25 **AD Physics in 2007 and beyond**

Speaker

Walter Oelert

09:25-09:50

AD experimental areas - operation and majors problems in 2006, outlook for 2007

Speaker

Tommy ERIKSSON

09:50-10:10 **Discussion on AD issues**

10:10-10:30

The physics program at n_TOF in 2007 and beyond

Speaker

Alberto Mengoni

10:30-10:45

Coffee break

10:45-11:00

RP issues for safe operation of the nTOF facility

Speaker

Thomas OTTO

11:00-11:25

What needs to be done to restart nTOF

Speaker

Paolo CENNINI

11:25-11:45

New nTOF target design issues

Speaker

Ans PARDONS

11:45-12:00

Characterization of the nTOF radioactive waste

Speaker

Markus Brugger

12:00-12:14

Towards a permanent disposal of the nTOF radioactive waste

Speaker

Luisa Ulrici

12:15-12:30

Discussion

12:30
