## BNL Site Report

*Monday, 8 October 2018 11:50 (15 minutes)*

The Scientific Data & Computing Center (SDCC) at Brookhaven National Laboratory (BNL) serves the computing needs of experiments at RHIC, while also serving as the US ATLAS Tier-1, as well as Belle-2 Tier-1 facility. This presentation provides an overview of the BNL SDCC, highlighting significant developments since the last HEPiX meeting at University of Wisconsin-Madison.
