LHC Long Shutdown 2 and database changes

Thursday 11 October 2018 11:35 (25 minutes)

In 2019 and 2020 there will be the long shutdown of the LHC.
Besides technical interventions on the accelerator itself, we plan to review our practices and upgrade our Oracle databases.
In this session I will show what goals we have on the Oracle Database side and how we intend to achieve them.

Desired length

20
