

7th Beam Telescopes and Test Beams Workshop

Thursday 17 January 2019

Analysis - Silicon Pixel & Strips - 503/1-001 - Council Chamber (09:40 - 10:40)

-Conveners: Thomas Eichhorn

time	[id] title	presenter
09:40	[59] Enhanced Lateral Drift Sensors: resolution studies	VELYKA, Anastasiia
10:00	[40] Testbeam Characterization of the ATLASpix _Simple Pixel Sensor Prototype in View of the Requirements for the CLIC Tracking Detector	KROEGER, Jens
10:20	[44] High rate electron beam tests with MuPix8 sensors at MAMI	GRZESIK, Carsten

Friday 18 January 2019

Analysis - Silicon Pixel & Strips - 503/1-001 - Council Chamber (09:00 - 10:40)

-Conveners: Matteo Centis Vignali

time	[id] title	presenter
09:00	[64] Pixel modules tests at ESTB for the ATLAS high-lumi upgrade	NACHMAN, Ben
09:20	[7] Test beam results of prototype modules for the ATLAS ITk Strip detector	RUEHR, Frederik
09:40	[19] Test beam results of irradiated silicon sensors with modified pixel layout	HOHM, Valerie Vanessa
10:00	[24] Beam Test Measurements on Planar Pixel Sensors for the CMS Phase 2 Upgrade	FEINDT, Finn NIEMEYER, Caroline
10:20	[28] Testing the ALPIDE sensor for applications in a proton CT	VARGA-KOFARAGO, Monika
