

TWiki at CERN: Past Present and Future

Friday, 23 April 2010 11:30 (30 minutes)

TWiki was introduced at CERN in 2003 following a request from a small group of software developers. The service soon grew in popularity and today there are over 7000 registered editors of 60000 topics. This presentation takes a look at the current service ,the problems experienced and a look at future developments for TWiki at CERN.
