

DISCRETE 2018

Monday, 26 November 2018

Multimessenger probes of the universe (16:50 - 18:05)

-Conveners: Nikos Mavromatos

time	[id] title	presenter
16:50	[115] Ultra High Energy Cosmic Rays and the Highest Energies Universe	ALOISIO, Roberto
17:15	[47] Bounding CPT and Lorentz symmetry violations through ultra-high-energy cosmic rays	POTTING, Robertus
17:40	[34] Anti-Neutrino Glashow resonance rate testing matter antimatter symmetry	Prof. FARGION, Daniele

Wednesday, 28 November 2018

Multimessenger probes of the universe (16:30 - 17:45)

-Conveners: **Robertus Potting**

time	[id] title	presenter
16:30	[131] Lorentz invariance violation from gamma-ray bursts	Prof. MA, Bo-Qiang
16:55	[95] Searching for Lorentz violation with astrophysical sources : review, problems, and prospects	BOLMONT, Julien
17:20	[107] Multimessenger Astronomy and New Neutrino Physics	KELLY, Kevin
