Studies of top quark properties at the DZero experiment

Friday 23 July 2010 09:20 (22 minutes)

Studies of top quark properties, including spin correlations, W boson helicity, forward backward asymmetry, Wtb coupling as well as search for anomalous top quark couplings with the D0 detector will be presented.

Author: DZERO_COLLORATION, Tevatron (Fermi National Accelerator Laboratory (FNAL))

Presenter: Mr SHARYY, Viatcheslav (CEA-Saclay)

Session Classification: 02 - The Standard Model and Electroweak Symmetry Breaking

Track Classification: 02 - The Standard Model and Electroweak Symmetry Breaking
