Searches for New Physics at the B-Factories

Saturday 24 July 2010 11:20 (15 minutes)

The B-Factories have accumulated huge data sets and provide an important window into possible new physics. In this talk, the latest search results for physics beyond the standard model will be presented from both BABAR and Belle experiments.

Authors: THE BABAR COLLABORATION; THE BELLE COLLABORATION

Presenter: BANERJEE, Swagato (University of Victoria)

Session Classification: 10 - Beyond the Standard Model (theory and experimental searches)

Track Classification: 10 - Beyond the Standard Model (theory and experimental searches)
