New Draft Privacy Statement

- Draft available:
 - https://docs.google.com/document/d/1Fs_7OMq2Ck-viZnYw823dzuNfYj0cr7vd-42EMrZt_s/edit?usp=sharing
- Being commented on now
- This would be presented at certain entry points
 - E.g. VOMS registration
- Clearly linked to from others
 - Experiment portals

New Privacy Policy

- Starting points
 - existing policy
 - new policy toolkit developed in AARC project
 - Checking alignment with new CERN legislation
- EOSC-hub/AARC2/EGI/EUDAT/WLCG Joint Security Policy Workshop – next week
 - Will be discussed there
 - Have identified effort available between now and April to work on this

Next steps

- Services run at CERN will be going through processes determined by new OC11 legislation
- Initial survey of services across all of WLCG already carried out
 - More detailed audit – perhaps analogous to CERN's Record Of Processing Operations may be appropriate
- Various service endpoints and portals will need specific privacy statements
 - Consistent with overall WLCG privacy policy
 - Consistent with local requirements
 - Dependent upon details of data processing carried out

Next steps

- Important that we are able to clarify where the administrative work and responsibilities lie

Questions?
