

# **TTC/ARIES topical workshop on flux trapping and magnetic shielding**

**Thursday, November 8, 2018 - Friday, November 9, 2018**

**CERN**

## **Scientific Program**

The session conveners will invite at least one introductory review talk per session. They will also propose further invited talks and they will take into account proposals from the community. If you are interested to give or propose a talk at this workshop, please contact the session conveners or the scientific chair, Walter Venturini (Walter.Venturini@cern.ch). The conveners will be selected before the middle of August. The goal is to have the scientific program completed by 5. October 2018.
