

**Session Program**

**6-8 Jan 2010**

**The New, the Rare and the Beautiful**  
***Wednesday morning: BSM and collider***  
***physics***

University of Zurich, Y16G05  
Winterthurerstrasse 190 8057 Zurich Switzerland

# Wednesday 6 January

09:00

## Wednesday morning: BSM and collider physics

**Session** | **Location:** University of Zurich, Y16G05, Winterthurerstrasse 190 8057 Zurich Switzerland

09:00–09:10 **Welcome**

**Speaker**

Michael Hengartner (Dean of the Faculty of Science)

09:10–09:40 **First collisions in LHC**

**Speaker**

Jeroen van Tilburg

09:40–10:10 **Phenomenology for emergent gauge theories**

**Speaker**

John Donoghue

10:10–10:40 **Broken R-parity in the Sky and at the LHC**

**Speaker**

Wilfried Buchmuller

10:40–11:10 **break**

11:10–11:40 **A Little Higgs model with exact dark matter parity**

**Speaker**

Mr Pedro Schwaller

11:40–12:10 **Discrete groups and Flavour Physics**

**Speaker**

Roman Zwicky

12:40
