

## **Session Program**

**6-8 Jan 2010**

# **The New, the Rare and the Beautiful**

## ***Friday morning: Flavour physics***

University of Zurich, Y16G05  
Winterthurerstrasse 190 8057 Zurich Switzerland

# Friday 8 January

09:00

## Friday morning: Flavour physics

**Session** | **Location:** University of Zurich, Y16G05, Winterthurerstrasse 190 8057 Zurich Switzerland

09:00–09:30

### Rare B Decays and Penguins with Charm

**Speaker**

Gerhard Buchalla

09:30–10:00

### From atomic alchemy to inclusive rare B decays

**Speaker**

Christoph Greub

10:00–10:30

### NNLO QCD corrections to non-leptonic charmless B decays

**Speaker**

Tobias Huber

10:30–11:00

### break

11:00–11:30

### Minimal flavour violations in SUSY GUTs

**Speaker**

Gilberto Colangelo

11:30–12:00

### Recent results in B physics

**Speaker**

Dr Tagir Aushev

12:00–12:30

### Role of flavour physics in the LHC era

**Speaker**

Tobias Hurth

12:30
