

Swiss Data Science Center

A complex journey made simple

Sandro Saitta, Chief Industry Advisor, SDSC

@SDSCdatascience

Why the Swiss Data Science Center ?

There is a gap between the academic world and industry applications which limits the impact of data science in Switzerland

Our mission is to accelerate the adoption of data science in academia and industry

The Swiss Data Science Center is a joint venture between

ETH zürich and 

This is where we can help

Our team of 30 professionals is still growing

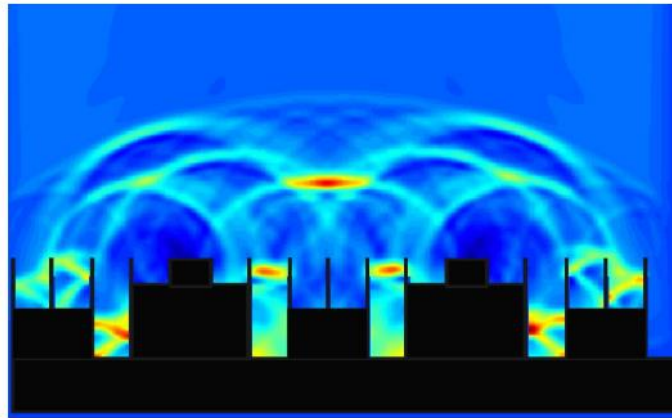

We are currently involved in 18 research projects

Human measurement

Acoustic design

Climate regulation

We work with Bühler on process optimization

CHF 2.67 bn.
