LNF is the largest, and that with more employees, of the INFN laboratories.

LNF is located 20 km south-east of Rome. It can be reached easily with many trains departing from the Roma Termini station:

- Tor Vergata Station is 150 m from the Lab entrance
- Frascati Station is 2 km away.

Two international airport are present in the Rome area:

- Fiumicino Airport “Leonardo da Vinci” about 40 km from Frascati
- Ciampino Airport about 5 km from Frascati

Traveling by car is also easy. LNF is close to the exit of the highway A1 (Monteporzio Catone).

The LNF research areas

Infrastructures

- 1 auditorium (300 places)
 - 12 Meeting rooms
 - Audio/video support
 - Streaming capability
 - Secretary support
-
- Internal caffetteria
 - Internal canteen
 - Internal guest house (20 rooms)
 - Bank/ATM

Internet Access

- Wifi access through EDUROAM available
- Participants may also get access to the LNF network requiring a guest account

Accommodation

- **Frascati** offers several accommodation solutions in the town center or close to the Laboratory.
 - Three hotels are within walking distance and provide a shuttle bus service to and from the Laboratory.
- **Rome**: participants may choose a hotel downtown Rome, nearby the Termini Railway Station and reach the LNF by train getting off at Tor Vergata Station. The journey takes about 20 minutes;
- **LNF Guesthouse**
A simple and cheap accommodation is possible at the LNF guesthouse (for a limited number of rooms).

- Excellence in accelerator physics
- Big infrastructures for detector development
- Wide network of research activities

Thank you !!!
