Programme Website

The screenshot shows the Indico event page for the International Teacher Weeks Programme 2019. The header features a globe made of flags and the event title. Below the header, the event dates (4-17 August 2019) and location (CERN) are displayed. A search bar is present in the top right. The main content area is divided into sections: 'Overview', 'Timetable', 'Videoconference Rooms', and 'Administrative Support'. The 'Administrative Support' section includes contact information for Maureen Probst and a phone number. The main text describes the 2-week residential programme for high school science teachers. Below this, there is a link to the event page, contact information for the Teacher Programme Manager (Jeff Wiener), and emergency contact details for the CERN fire brigade. The event details section shows the start and end times, location (CERN), and the organizer (Jeff Wiener). A note indicates that there are no materials yet. An information icon provides details about the scientific programme and agenda, and a final note expresses welcome to participants in Geneva, Switzerland.

This 2-week residential programme, which will take place for a third consecutive year in 2019, is open to high school science teachers from around the world who would like to update their knowledge of particle physics, its associated technologies, and related subjects in a group of science teachers of different nationalities.

The **International Teacher Weeks Programme 2019** will take place from 4 - 17 August 2019. Lectures, on-site visits, exhibitions, Q&A-sessions and hands-on workshops will introduce its participants into cutting-edge particle physics. We hope our participants will go back as ambassadors, who pass on the subject to our next generation of physicists, engineers, IT specialists and and and ...
