

**Session Program**

**12-15 Jan 2010**

**Low Emittance Rings Workshop 2010  
(LER2010)**

***Impedance modeling and measurements***

CERN, 60-6-015 (12/01/2010 only) + 40-S2-C01

# Thursday 14 January

08:30

## Impedance modeling and measurements

**Session** | **Location:** CERN, 60-6-015 (12/01/2010 only) + 40-S2-C01

08:30–08:50

### Overview on impedance in electron/positron machines

**Speaker**

Dr Ryutaro NAGAOKA

08:50–09:15

### Impedance Minimization by Nonlinear Tapering

**Speaker**

Dr Boris PODOBEDOV

09:15–09:35

### Impedance reduction at DAFNE

**Speaker**

Dr Mikhail ZOBOV

09:35–09:55

### Resistive wall in the DRs: different regimes and open questions

**Speaker**

Mr Nicolas MOUNET

09:55–10:15

### Impedance evolution and collective effect at Elettra

**Speaker**

Dr Emanuel KARANTZOULIS

10:15
