# MONIQUE MORROW

## ABOUT ME

Monique is President and Co-Founder of the Humanized Internet, a non-profit organization focused on providing digital identity for those individuals most underserved, blockchain is certainly a potential mechanism for this billion people challenge, see: <https://www.thehumanizedinternet.org>.

Monique is also an Associated Researcher at Alexander Humboldt University Institute of Internet and Society, <https://www.hiig.de/en/staff/monique-morrow/>

Monique is currently co-chair of the IEEE Ethics in AI and Autonomous Systems Mixed Reality Committee in addition to being a member of its Executive Committee. Monique is also an Advisor to Rising Star Swiss Cybersecurity Accelerator. <https://risingstaraccelerator.ch/>

Monique is also on the Advisory Board for procivis.ch. Procivis provides an integrated electronic identity and services solution, called "eID+". <https://procivis.ch/services/>

Monique has already advanced Cisco's technology footprint through the ideation and conception of disruptive technologies spanning Artificial Intelligence and Mixed Reality (AI/MR), Blockchain, IoT and M2M services, Semantic Web, Cloud Federation, and the Tactile Internet. Her greatest success has been in infusing a big-picture perspective that helps engineers and business leaders understand how existing and future technologies align with the needs of business, government, non-profits, and society-focused organizations. To this end, Monique was honored as *Business Worldwide Magazine's* 2016 Visionary of the Year (Technology, Social Change and Ethics) and 2016 Social Media Champion of the Year.

## Key points

- President and Co-Founder of the Humanized Internet
