Managing complex workplaces

An aerial, high-angle view of a massive, circular research facility. The interior is filled with complex machinery, including large grey rectangular blocks, yellow and blue components, and a dense network of cables and pipes. A prominent curved structure, possibly a tunnel or a large-scale experiment, runs through the center. The ceiling is a complex, curved structure with a grid of lights. The overall atmosphere is industrial and scientific.

Research facilities

*“This could be interesting, now they work
with spreadsheets.”*

Stephen Molloy, Research engineer, MAX IV

*“Would like to take a look at it, might
be interesting.”*

Stefano Cortese, IT department, EGO

NORWEGIAN CHURCH AID

actalliance

17.10.18 Oslo/Geneve

Letter of intent

Norwegian Church Aid, represented by HR-coordinator Adrian Solberg, is prepared to become a pilot customer for an NSE start-up built on the CERN technology specified as 'Shift Planning Tool'.

The involved parties understand that there is no guarantee that a start-up will exist and the representative of NSE is not to be held responsible in any capacity.

Sales

An overhead view of a meeting table with a light blue surface. On the left, a person's hands are typing on a black laptop. In the center, a person's hands are holding a glass of orange juice. To the right, a person is writing on a white sheet of paper on a blue clipboard. In the bottom right, a person's hands are typing on a silver laptop. There are two white coffee cups with black coffee, one in the center and one on the right. A small glass of orange juice is also on the table. A dark blue folder or notebook is in the center. The background shows a wooden floor and the arms of several people sitting around the table.
