Search for SUSY with tau final states - CMS Experiment

Wednesday 22 May 2019 14:20 (15 minutes)

Results from the CMS experiment are presented for searches for supersymmetric particle production with tau leptons in the final state. The searches use proton-proton collision data with luminosity up to 137 fb-1 recorded by the CMS detector at center of mass energy 13 TeV during the LHC Run 2.

Presenters: BHATTACHARYA, Soham (Tata Inst. of Fundamental Research (IN)); ULMER, Keith (University of Colorado, Boulder (US))

Session Classification: Supersymmetry: Models, Phenomenology and Experimental Results

Track Classification: Supersymmetry: Models, Phenomenology and Experimental Results
