

27th International Conference on Supersymmetry and Unification of Fundamental Interactions (SUSY2019)

Monday 20 May 2019 - Friday 24 May 2019

Omni Hotel

Scientific Programme

Supersymmetry: Models, Phenomenology and Experimental Results

Unification of Forces

Electroweak, Top and Higgs Physics

Precision Calculations and Tools

BSM in Flavor Physics

Neutrinos: Models, Phenomenology, Experiments

Cosmology and Gravitational Waves

Dark Matter, Astroparticle Physics

Formal Field Theory and Strings

Alternatives to Supersymmetry

Machine Learning, Big Data and Quantum Information
