

27th International Conference on Supersymmetry and Unification of Fundamental Interactions (SUSY2019)

Monday, 20 May 2019

Unification of Forces - Copano (16:20 - 18:20)

-Conveners: Volodymyr Takhistov

| time | [id] title | presenter |
|-------|---|------------------------|
| 16:20 | [14] Minimal SO(10)-based GUT Model | Mr PERNOW, Marcus |
| 16:40 | [64] Supersymmetric Super-GUT Models | Prof. EVANS, Jason L. |
| 17:00 | [79] Unification of the Standard Model and Self-Interacting Dark Matter in [SU(5)*U(1)] ⁴ GUT | Dr YAMADA, Masaki |
| 17:20 | [129] Neutrino masses, Inflation and Dark Matter in Grand Unified Theories | Prof. OKADA, Nobuchika |
| 17:40 | [134] Peccei-Quinn Symmetry and Nucleon Decay in Renormalizable SUSY □□(10) | SAAD, shaikh |
| 18:00 | [208] On the origin of fermion masses and mixing from a unified description of flavour and gauge interactions | MORAIS, Antonio |

Tuesday, 21 May 2019

Unification of Forces - Nueces Ballroom A (16:20 - 17:40)

-Conveners: Natsumi Nagata

| time | [id] title | presenter |
|-------|---|----------------------|
| 16:20 | [170] Spontaneous SUSY breaking in natural GUT and axino LSP | Dr NOBUHIRO, maekawa |
| 16:40 | [181] Higgs Parity, strong CP problem, GUT | HARIGAYA, Keisuke |
| 17:00 | [213] IR fixed point predictions for third generation masses in the MSSM with a vectorlike family | Mr MCGINNIS, Navin |
