

27th International Conference on Supersymmetry and Unification of Fundamental Interactions (SUSY2019)

Tuesday, 21 May 2019

Cosmology and Gravitational Waves - Copano (14:00 - 16:00)

-Conveners: Ivonne Zavala

time	[id] title	presenter
14:00	[8] μ -hybrid inflation with low reheat temperature and observable gravity waves	VARDAG, Fariha K.
14:20	[59] Multifield D5-brane Inflation in the Throat	Ms CHAKRABORTY, Dibya
14:40	[15] Curvature Perturbations From Stochastic Particle Production During Inflation	GARCIA GARCIA, Marcos A.
15:00	[174] Minimal Warm Inflation	Mrs BERGHAUS, Kim
15:20	[111] Electroweak Baryogenesis Driven by an Axion-like Particle	SHIN, Chang Sub

Cosmology and Gravitational Waves - Copano (16:20 - 18:00)

-Conveners: Ivonne Zavala

time	[id] title	presenter
16:20	[131] Complementarity between Higgs searches at the LHC and Gravitational Waves signals	GHOSH, Tathagata
16:40	[189] Multistep Strongly First Order Phase Transitions from New Fermions at the TeV Scale	ANGELESCU, Andrei
17:00	[60] Late universe dark matter decays can relieve the H_0 tension	KOUSHIAPPAS, Savvas
17:20	[220] Varying Physical Constants from Astrometric and Cosmological Analysis	Dr GUPTA, Rajendra
