

Town meeting: Relativistic Heavy ion physics

Wednesday 24 October 2018 - Wednesday 24 October 2018

CERN

Scientific Programme

CERN Council has launched an update of the European strategy for particle physics to which written scientific input can be provided till December 2018. As for the previous such exercise in 2012, this one-day town meeting will aim at formulating a consensus view of the entire scientific community with research focus on relativistic heavy ion collisions. It will review the state of art and future opportunities for relativistic heavy ion collisions across all current and future experimental activities (LHC, RHIC, SPS, FAIR, Dubna), as well as the main theoretical efforts and future initiatives accompanying it.
