## Geant4 current status and prospects

*Friday, 26 April 2019 11:50 (30 minutes)*

2019 is the 20th year anniversary of Geant4 public releases. After 20 years with several architectural evolutions, Geant4 is still steadily evolving. It finds quite a wide variety of user domains including high energy physics, nuclear physics, space engineering, medical applications, material science, radiation protection and security. In this presentation, we will present the current status of Geant4 kernel including the recent and on-going developments, and prospects for the next decade.
