

Workshop for development and applications of fast-timing semiconductor devices

8th Dec 2018

@ University of Tsukuba,
Tokyo Campus (Otsuka) Room 117/119

1st Bulletin November 13, 2018

Thank you for agreeing on providing a talk and having interest in the Workshop. Very preliminary workshop program is ready and you can reach it at:

<https://indico.cern.ch/event/747424/timetable/#20181208>

Each talk has a 20 min slot followed by 10 min discussion. The presenter may suggest points of discussion by yourself - which may be helpful for fruitful discussion.

The program is still negotiable, so feel free to ask us for any change.

The Workshop is for one day and we need to adjourn by 16:00. For efficient discussion, the organizer provides you working lunch “bento”.

The Workshop site is at University of Tsukuba, Tokyo Campus, room 117 (ground floor). It is at 5-min walk distance from the nearby Tokyo Metro “Myogadani 茗荷谷” station of the Marunouchi line, accessible from Tokyo station. We are please to assist you in case you have further question.

Workshop organizers:

Kazuhiko Hara, Yoshinobu Unno, Koji Nakamura
