

# Zimányi 2009 Winter School on Heavy Ion Physics

## Monday 30 November 2009

### Status of ASACUSA, GELATINO, LHC GRID and NICA - Tanácsterem (Council rooms), Building 3 (11:00 - 12:35)

| time  | [id] title  | presenter                  |
|-------|---|----------------------------|
| 11:00 | [66] Thoughts about tagged neutrino beam, GELATRINO proposal at LHC | Prof. VESZTERGOMBI, György |
| 11:20 | [0] Atomic collisions using slow antiprotons in ASACUSA at CERN     | Dr TÓKÉSI, Károly          |
| 11:50 | [67] GRID applications in the ALICE Experiment at CERN LHC          | Mr NAGY, Máté Ferenc       |
| 12:10 | [68] STATUS of the NICA project at JINR                             | Dr SORIN, Alexander        |
