

Zimányi 2009 Winter School on Heavy Ion Physics

Monday, 30 November 2009

Results from RHIC - Building 3, Tanácsterem, MTA KFKI RMKI (14:00 - 15:50)

time	[id] title	presenter
14:00	[69] Constraints from RHIC for the transport coefficients of Quark Gluon Plasma	Prof. LACEY, Roy
14:50	[70] Recent femtoscopic results in Au+Au and p+p collisions from PHENIX at RHIC	Prof. CSÖRGŐ, Tamás
15:20	[71] Search for squeezed back-to-back particle-antiparticle correlations in 200 GeV Au+Au collisions in PHENIX	Mr NAGY, Márton I.
