

Welcome to the

HSF/LPCC

Physics Event Generator

Computing Workshop

- Welcome to the 56+ participants!
 - Theorists
 - Experimentalists working on physics analysis
 - Experimentalists working on computing and software
 - Software engineers
 - *Hope for a productive exchange between people with different profiles!*

- Many thanks to
 - Michelangelo Mangano, CERN-TH and the LPCC
 - All of the organizers, speakers and participants

Logistics and practicalities

- Monday 26 to Wednesday 28 (agenda: <https://indico.cern.ch/event/751693>)
- Workshop venue
 - Monday whole day + Tuesday morning: *TH Conference Room 4-3-006*
 - Tuesday afternoon: *IT Auditorium 31-3-004 (near Restaurant2)*
 - Wednesday hackathon: *5-1-015 (between TH and CERN Reception)*
 - If you are interested in the workshop, please [register on this link](#)
 - Vidyo room: *Physics_Event_Generator_Computing_Workshop*
- Discussion – looking forward to a very interactive workshop!
 - Time allocated after each talk
 - General discussion after each session and on Tuesday from 11 to 12
- Live notes on [google docs](#) - don't be shy about sharing your comments!
