

## Run 2 Optics and Corrections (20' + 10')

*Wednesday, 30 January 2019 14:30 (30 minutes)*

- Linear / non-linear corrections
- Is the machine drifting - beta beat differences ?
- Coupling decays at injection can we apply a cure for the future?
- Crossing angle levelling and non-linearities

**Presenter:** PERSSON, Tobias Hakan Bjorn (CERN)

**Session Classification:** Session 1: Overview of Run 2
