# Setup

<u>Timeline:</u> Production system in place by Christmas; Test system by 13 January.
Comparison carried out in the new year (3 weeks duration?)
Completes (all being well) early February.

# Switch over from SAM to Nagios

Timeline: Early February 2010.

Connect ROC's own Nagios instances to pilot message bus

Timeline: January 2010.

Check (using MyEGEE) that each regional Nagios gives same results as project Nagios

Timeline: February + March 2010.

Regional ROC Nagios boxes

For each ROC, check that results match.
If not, fix the problem.

For each ROC, when regional Nagios box is ready, turn off project Nagios and attach regional Nagios to production message bus

Timeline: February + March 2010.
