

The first heavy ion collisions at the LHC - HIC10

Contribution ID: 5

Type: **not specified**

Fluidity, Supercritical Fluids, RHIC and the LHC

Monday 23 August 2010 10:30 (1 hour)

I will present a general fluidity measure which allows to compare fluids a vastly different length scales. Next I will discuss supercritical fluids and make contact to the fluid generated at RHIC and what this could imply for flow measurements at the LHC
