

# DPM Upgrade Task Force

# Motivation

- The goal is to follow up the upgrade of the DPM sites to the DPM version and configuration required to support third party copy(TCP) rather than with gridftp protocol and Storage Resource Reporting (SRR).
- More info about SRR
- The task can be performed in two steps:
  - DPM upgrade to version 1.10.3 and higher (required for support of TCP)
  - Enable DOME SRR configuration

# Members

- DPM experts – Fabrizio Furano, Oliver Keeble
- WLCG Storage Space Accounting – TBC
- WLCG Operations – Julia Andreeva
- Volunteers are welcome!
